

## Art. 966 POLYPLAN Driveway

Rapid roll doors make high demands on membranes: excellent flatness of panels allow for exact manufacturing of doors, flexibility and surface characteristics guarantee best rolling behaviour, while an adapted surface sealing ensures a good look even in harsh industrial environments. Polyplan Driveway, based on a type II membrane is made to match those requirements.

Weight:	32.4 oz/sqyd
dimensions:	upon request
Application:	Roll doors
Surface:	matt

- high-tenacity polyester base fabric in type II weaving style -> pronouncedly robust and dimensionally stable
- surface adapted to application -> low soiling and good operation properties
- flexibility adapted to application -> good rolling properties
- excellent flatness -> allows for exact panel cutting and welding
